— HOW TO REDEEM —

It's time to get moving again. You'll be out on the lakefront as soon as the temperature hits 60 but it wouldn't hurt to get the blood moving a little bit before then—especially if you have endurance sports in mind.

Get your head start at On Your Mark Coaching + Training, a new multi-sport and personal-training studio for athletes who want—or let's be honest, *need*—the undivided attention of a coach and trainer who is dedicated to results.

Gilt City members can purchase a package of three or ten classes for \$25 or \$90. You can sweat your way through the F Train, Body Weight, Run, or Cardio Box.

The packages are valid at the West Loop and Bucktown locations. You might be intimidated by the studio, but don't worry, you'll be going through a workout with a coach and you also might see some of the first lather of their clients. All levels are welcome.

It's not where you start.
